RELATED: Nintendo Switch online review: If it wasn't that cheap, it would be much more disappointing if you bought a Nintendo Switch online Individual Membership and were wanting to go to the family one you're in luck for. Nintendo of Europe tweeted that from October 1, 2019, gamers will be able to use the remaining days on individual membership to get a discount on upgrades to family membership. Nintendo has not revealed specific figures for these discounts just yet, but this information will become available on Nintendo's website in the near future. If your family has become bigger since you purchased the Individual Membership now is a great time to upgrade. We're kind of surprised that Nintendo hasn't made this discount update available so far, but we're excited to be in place soon for all those who want to use it. Nintendo Switch online is only \$20 a year for individuals. There's also a family plan for \$35 a year, and it supports up to eight users on one family plan. Before Nintendo Switch Online debuted, anyone could play their Switch games online for free. Now that the ability is locked behind the paywall of Nintendo Switch Online, so you'll need to either pony up for an individual service at \$4 a month or \$20 a year, or join a family membership for \$40 a year to eight people for extra savings. The service itself gives you the opportunity to play your favorite Nintendo Switch games online, such as Splatoon 2, Mario Kart 8 Deluxe, Monster Hunter Generations Ultimate, Diablo 3, and almost everything else that has an Internet connection. If you played a lot of games online before the service debuted and wouldn't want to be without it, then that in itself makes the value of the membership worthwhile. Is Nintendo Switch Online Worth? - Do you want to have a voice chat with your friends while playing? Nintendo Switch Online also gives you the ability to use voice chat with certain games in the Nintendo Switch Online mobile app. However, we've found that this is a total poor implementation of Nintendo's voice chat, and you'd better use something like Discord or Skype while playing with Switch friends. In any case, there are currently only a few games that support voice chat via the Nintendo Switch Online app: ARMS Dragon quest Builders 2 Mario Kart 8 Deluxe Mario Tennis Aces Marvel Ultimate Alliance 3: Black Order Mortal Kombat 11 Red Faction Guerrilla Re-Mars-tered Saints Row: Third - Complete Package Of Shogun Skull: Bone-A-Fide Edition lke schedule gaming sessions, voice chat, and sometimes get

exclusive gear in games (like Splatoon 2). Nintendo Switch Online's entire NES library also supports voice chat through the app. Is Nintendo Switch Online Worth? - Do you want to have a backup of your game to keep data in the cloud? Chances are high that you have invested dozens, perhaps hundreds of hours in all your Nintendo Switch games by now. With Nintendo Switch Online you will get automatic cloud backup for all your games that currently support this feature. This means that one thing is less to worry about if something happens to your switch because you can just pick up where you last left off. However, some games do not support cloud saves. For the most part, if this is not specified, we can assume that all games should support it.
